ISO 14001:2015*

What is ISO 14001?

- The ISO 14001 standard was designed by expert representatives from many different countries
- The standard outlines the basic elements of a good environmental management system (EMS)
- These elements are good business practices
- The standard promotes the adoption of a process approach where consistent and predictable results can be achieved

The Process-Based Model

The Process-Based Model

- An organization is a system of interrelated processes that function as a coherent system
- The standard is geared at managing and improving those processes
- Key processes, those that lead to process outputs, must be identified
- Methods to measure and control the processes must be included
- Risks and opportunities need to be determined and actions to address them implemented
